OUR VALUE PROPOSITION

At Leaders Football Center, we pride ourselves on creating the best and most conducive environment for the development of young players and athletes within the ages of 5– 19 years old.

Our Development programs are based on expertly designed curriculums that take players & athletes on a journey, promoting passion and love for sports while developing them with skills and positive experiences which ensure they are very well-rounded to have a career in sports.

Our core values of Discipline, Integrity, Excellence, Teamwork, Perseverance, Responsibility, Diligence, Service, Capacity-building, Compassion, Possibility-mentality, and Courage are also taught to the students to help shape their progression into young adults, giving them skills that can be used throughout their lives and indeed become the pride of our city.

Our coaches are highly trained in helping young people develop their God-given talents and skills as athletes and players, either professionally, semi-professionally, or for leisure. They are also qualified to teach Life Skills through sport-based activities and scenarios

MISSION AND VISION STATEMENT OF LFC

The LFC FIVE Pillars of Sports Development

Physical

In the journey of development, our curriculum focuses on building and enhancing motor skills such as endurance, speed, power, agility, among others. These are some of the areas we will develop players to prepare them for the intensity of the game.

Technical

We recognize that individuals have varying levels of talent and ability. Our curriculum is designed to fan that spark of talent, no matter the level of skill, on a journey of development that shows visible and significant progress in the player's ability

Adaptability

Ambitious people constantly strive to adapt to and excel in different environments. Our end goal is to develop players capable of competing and holding their own as professional footballers wherever they find themselves; we will engage players on foreign trips and tournaments to enhance their game abilities, confidence and social interaction skills.

Tactical

An individual may possess skills but lack the knowledge or awareness of when and where to apply that skill in real-world. We teach and guide every player in our program to develop the ability to read and understand the flow of the game and apply themselves appropriately. (field).

Mental

Sports is not just a game of physical strength and ability. Our focus here is to teach our players personal leadership Skills for success on & off the pitch; build confidence and develop their minds to break through mental barriers so they can progress and perform up to their full potential.

MESSAGE FROM THE SPORTS DIRECTOR (LFC)

We are glad to have you join us at leaders football center, the birthplace of next-generation football stars. Unlike any other football development facility in Africa, LFC is committed to the wholesome development and unlocking of the leadership potential in all participants. Besides from creating a platform to harness great football talents, we are also driving the mission of positively affecting societal change using football as a tool for active youth engagement and development. Whatever program you might find yourself in, do keep in mind that this experience is bound to have a long life positive impact on all participants. Thank you for coming on board a flight of endless possibilities.
